

.....Just one more benefit of becoming a
Dickinson Area Partnership Member.....

Hometown Health Card

Local Choices For Better Health!

The Dickinson Area Partnership, in collaboration with Dickinson County Healthcare System, has implemented a healthcare program that discounts services at Dickinson Memorial Hospital and participating Physicians' offices. This health initiative is designed to provide better access to locally based healthcare services and to help the employees, and spouses and dependents, of Partnership member businesses stay as healthy as possible.

This new program is consistent with the Partnership's mission of supporting local business and providing for economic stability in the area. Access to quality medical care is critical to the physical health of its citizens as well as the continued economic health of the region.

Present the **Hometown Health Card** at Dickinson Memorial Hospital and at participating Physicians' offices to receive the following benefits:

Benefits For Those Without Insurance

- 25% off all services and programs provided at Dickinson Memorial Hospital
- 25% off office visits and procedures at participating physician practices

Benefits For Those With Insurance

- 25% off all non-covered services at Dickinson Memorial Hospital
- 25% off all non-covered services provided by participating physicians

The following Participating Physicians will honor the Hometown Health Card for employees of Dickinson Area Partnership member businesses:
